**Shopping Safety: ONLINE SHOPPING**

*Online shopping makes purchasing the perfect gift very easy. But, before you plunge into your online shopping spree, make sure you are taking the proper precautions.*

**SAFETY TIPS**

- If possible, skip using your debit card and stick to credit cards. Credit cards offer more protection.
- Shop secure sites only. The easiest way to tell is to look for “Https” at the beginning of the site’s address. If you don’t see an “s”, then the site is not encrypted and your information is not secure.
- Be on alert for email scams. It is best not to open emails from someone you don’t know or a website that you have not visited.
- Before clicking on any link, do your research. Many times these contain viruses.
- Use strong passwords.
