Larceny of Vehicle Parts

Catalytic Converter Thefts

Thieves target catalytic converters because many contain precious metals, which are then sold to a scrap yard for cash.

What Can You Do?

- When possible, park in well-lit areas and close to building entrances.
- Calibrate your car’s alarm to set off when it detects vibration.
- Install an overt video surveillance system and place the camera facing your vehicle.
- If you have a garage at your house, park your car inside and keep the garage door shut.
- Have the catalytic converter welded to your car’s frame or attach a security device.
- Engrave your vehicle identification number (VIN) on the catalytic converter.

Report suspicious activity to your local law enforcement agency.

Altered Mufflers

The LCSO continues to receive calls and traffic complaints from residents regarding the increase in noise on roadways from altered mufflers.

In March 2021, the Virginia General Assembly passed new laws limiting law enforcement’s ability to conduct traffic stops for equipment violations.

This has led to an increase in the use of altered mufflers by drivers and many residents have complained about the excessive noise on roadways around their homes.

The Loudoun County Sheriff’s Office remains vigilant in addressing the concerns of our residents and are focused on utilizing the laws available to law enforcement to address speeding and moving violations.
