Incident Reports

**Larceny (update):** Between June 2021 and April 2022, the Loudoun County Sheriff’s Office, investigators from the Dulles South Station, and regional law enforcement agencies have been coordinating resources to investigate a series of thefts from unlocked vehicles. These thefts include, unsecured weapons, high value property and victim’s debit / credit cards.

The suspects have fraudulently used victim’s stolen bank cards at regional retail outlets. One retail outlet estimates total fraudulent credit / debit card charges, from this group, to be approximately $370K.

Several suspects have been identified; however, the investigations remain ongoing at this time.

**Larceny (update):** Between October 2021 and November 2021, a construction company reported four instances of having materials taken from the job site. Upon investigation, detectives learned that an employee for the construction company was responsible for the thefts.

On January 12, 2022, four felony warrants were obtained for the subject, who at that time was out of the country. On March 29, the Metropolitan Washington Airports Authority Police Department arrested the subject as she was returning to the United States.

Greysi G. Corrales Aguilera, 30 of Herndon was charged with four counts of Felony Larceny and transported to the Loudoun County Adult Detention Center where he was released on a $5,000 bond.

• Safely secure all firearms  **Not in Vehicles**

• And……..Please share the “9PMRoutine”
  information with your community to help prevent
  property crimes in your neighborhood !!
Larceny of Vehicle Parts

Catalytic Converter Thefts
Thieves target catalytic converters because many contain precious metals, which are then sold to a scrap yard for cash.

What Can You Do?
- When possible, park in well-lit areas and close to building entrances.
- Calibrate your car’s alarm to set off when it detects vibration.
- Install an overt video surveillance system and place the camera facing your vehicle.
- If you have a garage at your house, park your car inside and keep the garage door shut.
- Have the catalytic converter welded to your car’s frame or attach a security device.
- Engrave your vehicle identification number (VIN) on the catalytic converter.

Report suspicious activity to your local law enforcement agency.

Loudoun County Sheriff’s Office
Emergency: 9-1-1
Non-Emergency: 703-777-1021
The LCSO continues to receive calls and traffic complaints from residents regarding the increase in noise on roadways from altered mufflers.

In March 2021, the Virginia General Assembly passed new laws limiting law enforcement’s ability to conduct traffic stops for equipment violations.

The complaints of loud noise from these altered mufflers led the legislation to again allow loud or altered mufflers to be a primary reason for law enforcement to conduct traffic stops beginning July 1, 2022.

The Loudoun County Sheriff’s Office remains vigilant in addressing the concerns of our residents and are focused on utilizing the laws available to law enforcement to address speeding and moving violations.
USERT Briefing
