High Threat Group Leads:

LCSO Captain Paul Loconti
LCFR Battalion Chief Daniel Neal
Purpose and Function of the High Threat Group

1. Identify a group (in each agency) focused on high threat events, responses, and preparation
   ➢ We continually identify personnel in our agency

2. Prevent, prepare for, and reduce loss of life resulting from a possible large-scale AVI

3. Build a “culture” of interoperability between LCSO and LCFR
   ➢ Routine events that occur everyday to prepare for “Superbowl” events that rarely occur
Training events that led to High Threat Group

- 2015 Rescue Task Force Training
  Loudoun County High School
- 2018 Rescue Task Force Training
  Arcola Community Center
- 2019 Full-Scale Exercise

Altered Mufflers

Following the most recent session of the Virginia General Assembly, a bill was passed to amend and reenact the Virginia Code that returns the enforcement of Improper Exhausts by a law enforcement officer as a primary offense. The new law took effect on July 1, 2022, and replaces the March 2021 law restricting law enforcement’s ability to conduct traffic stops for this equipment violation (making it a secondary offense).

Virginia law § 46.2-1049 continues to require exhaust systems to be in good working order “and in constant operation to prevent excessive or unusual levels of noise.” Violations are punishable by a fine of no more than that provided for a Class 4 misdemeanor.

What is the difference between a primary and secondary offense? A primary offense is a traffic violation, that on its own, law enforcement establishes reasonable suspicion to make a traffic stop. A secondary offense is a violation that law enforcement can observe, but not pull over unless the officer observes a primary offense.
The Crime Prevention Unit:
➢ Coordinates public education programs to include fraud and scam prevention, internet and personal safety, and burglary prevention.
➢ Free security assessments
➢ Active threat awareness
➢ Personal and realtor safety

Larceny of Vehicle Parts

Catalytic Converter Thefts
Thieves target catalytic converters because many contain precious metals, which are then sold to a scrap yard for cash.

What Can You Do?
- When possible, park in well-lit areas and close to building entrances.
- Calibrate your car’s alarm to set off when it detects vibration.
- Install an overt video surveillance system and place the camera facing your vehicle.
- If you have a garage at your house, park your car inside and keep the garage door shut.
- Have the catalytic converter welded to your car’s frame or attach a security device.
- Engrave your vehicle identification number (VIN) on the catalytic converter.

Report suspicious activity to your local law enforcement agency.

IRS SCAM

As if tax time wasn’t stressful enough, you also have to worry about scammers claiming to be from the IRS.

Things the IRS WILL NOT do...
(from our friends at the IRS)

- Initiate contact with taxpayers by email, text messages or social media channels to request personal or financial information.
- CALL to demand immediate payment using a specific payment method such as a prepaid debit card, gift card or wire transfer. Generally, the IRS will first mail a bill to any taxpayer who owes taxes.
- Demand that you pay taxes without the opportunity to question or appeal the amount they say you owe. You should also be advised of your rights as a taxpayer.
- Threaten to bring in local police, immigration officers or other law enforcement to have you arrested for not paying. The IRS also cannot revoke your driver’s license, business licenses, or immigration status. Threats like these are common tactics scam artists use to trick victims into buying into their schemes.

Beware of Scammers

- Scammers are convincing!
- Scammers will ask you to purchase gift cards, cash app money, send money through a wire service, or use Bitcoin to pay for bills, settle an arrest warrant, upgrade your computer, sign up for a utility service, etc.
- Scammers are clever and will pretend to be a company or your bank. They even using spoofed phone numbers to make them look official.
- Scammers will email or text you a link to gain access or place a virus on your device. Do not click on any unsolicited links.
- Scammers will rush you into making a decision and will often call numerous times.

If you have a group and would like a fraud & scam presentation, scan the QR code or contact the LCSO Crime Prevention Unit @ Sheriff_Crime_Prevention@loudoun.gov

HEARTSTRING SCAM

Have you seen posts like this on your social media community & group pages?

These types of scams pull at your heartstring and make you want to help. The scammer hopes that people will send them money or gift cards.

A couple of ways to determine if the person is a scammer:
- The person has never posted in the group before.
- The person has a very limited social media profile or appears to have a new account.

What can you do?
- Instead of sending money, refer the person to local organizations that can provide assistance. Loudoun County has many great organizations.
- Contact the admin of the social media page and make them aware.
