Governor McAuliffe:

I want to thank you for conducting the “RU Online Survey” in the spring of this year! I was happy to cross promote and encourage participation through an official Newsflash sent by my office to thousands of western Loudoun residents. One of the obstacles to expansion of new services throughout western Loudoun has been allegations from existing providers of a supposed lack of resident requests for new service in our currently unserved areas. As such, I am writing to formally request a copy of the “RU Online Survey” results obtained from Loudoun County residents.

As you know, nearly 70% of the world’s internet traffic traverses Loudoun County each day, yet so many in our rural areas are unable to access it. This lack of access makes it difficult for students to complete their homework, hurts rural businesses, and decreases the overall quality of life for so many of our residents.

Your assistance in providing this information would be greatly appreciated by my office.

Very Respectfully,

Tony R. Buffington
