Help Fight Crime, Support Crime Solvers

The mission of Loudoun County Crime Solvers is to promote community participation by assisting local law enforcement agencies, through a partnership with the community and the media, to apprehend and convict criminals through a system of cash rewards.

Loudoun County Crime Solvers depends on private donations and your donation to the non-profit organization is critical to support this mission.

Residents interested in supporting Loudoun Crime Solvers are asked to send a check to Loudoun County Crime Solvers, P.O. Box 3343, Leesburg, VA 20177.

Donations are tax-deductible.
The Loudoun County Sheriff’s Office, as part of the regional heroin initiative called the Heroin Operations Team (HOT), has expanded the agency’s Narcotics tip-line as a ‘HOT’-line for suspected drug activity and drug usage in the county.

Loudoun residents are encouraged to call 1-833-HOT-TIPS (1-833-468-8477) with any information regarding narcotics activity.
Traffic calming is the slowing of motorists on residential streets using physical and non-physical measures without restricting access.

Because addressing speeding on one street will likely push the problem to adjacent streets, traffic calming is a community initiative, and will likely include several or more streets within a community.
TRAFFIC CALMING SOLUTIONS INCLUDE:

**Enforcement Solutions:**
- Deputy presence and enforcement operations

**Education Solutions:**
- Sign/Message Boards alert motorists
- Portable Speed Signs and Trailers

**Physical and Non-Physical Measures:**
- Speed hump, raised crosswalk, choker, etc.

(Note: Contact Loudoun County Department of Transportation & Capital Infrastructure at 703-737-8624 for more information on these measures)

DON’T FIND YOURSELF ON THIN ICE

Project Lifesaver

Project Lifesaver is a national, proactive electronic tracking program used to assist in location people with Alzheimer’s disease, dementia and related disorders, and children with Down Syndrome or Autism Spectrum Disorder who wander from home and become lost.

A lost child with Autism or Down Syndrome, or an adult wandering from dementia, constitutes a critical emergency and presents challenges to police in search and rescue operations. While we cannot predict when a person will become lost, we can prepare.

A personalized state-of-the-art battery powered transmitter is used that emits a constant radio signal 24 hours a day. The radio transmitter is the size of a wrist watch and provides a constant radio signal.

Once the sheriff’s office is notified that a person is missing, deputies identity the signal from a specialized directional antenna and are able to track the wandering person. Deputies will use this equipment on foot, in cars, and also by air, providing maximum cover and capability for search efforts for several miles.

Nationwide, Project Lifesaver gas responded to more than 3,046 rescues and all were 100 percent successful with a recovery time of less than 30 minutes.
