Loudoun, a major milestone has been reached in the Envision Loudoun process. A draft Comprehensive Plan has been developed for the public to review and the county has scheduled several open houses in May for public comment. In addition, the County will host six open houses between May 14th and 24th. Each open house will follow the same format: participants can drop in to meet with county staff, learn more about the draft plan, and provide feedback on the draft plan. Please continue to come out to speak on the Comprehensive Plan.

Investing in Transportation

The Northern Virginia Transportation Authority (NVTA) has an open house and public hearing on May 10th at 5:30 pm where you can learn about the 60 projects under consideration for its [FY2018-23 Six Year Program](#) and share your input (see information below). In addition, NVTA is accepting public comments on projects, now through midnight on May 20th. The Washington Metropolitan Area Transit Authority (WMATA) capital funding bill passed by the General Assembly significantly reduced funding to NVTA, which has a direct adverse impact on the County's six-year Capital Improvement Program (CIP) and how the County funds road and transit projects. Because of the action taken by the General Assembly this year, the cut off

line for funding will probably be project number 27. If this bill failed, the cut off line for funding would have been project number 35. A final decision on the projects to be funded will be made by July.

You're Invited to Our **OPEN HOUSE & PUBLIC HEARING**
