30 Second Commercial - So Tell Me about Yourself: Networking can be easy and more comfortable if you have a 30 Second Commercial prepared. Also known as an “elevator speech,” the commercial is your first chance to introduce yourself to someone and give them a short synopsis of your skills and experience with the goal of getting them to ask you for more information. In this workshop, learn what elements go into your 30 Second Commercial, write it and then practice, practice, practice!

Networking Fundamentals: Networking is a strategy to open up opportunities and possibilities in your job search. Learn the essentials of Networking to re-invigorate your professional relationships and engage in new connections and new networks.

Know Before You Go: Know Before You Go focuses on the important aspects of having a productive and successful visit to the Career Fair—everything from preparing to go to the Career Fair (by doing research on the companies you want to talk to, dressing for success and preparing your 30 Second Commercial) to how to navigate the Career Fair and approach your targeted companies when you are at there, and finally, how to follow up with employers after the Career Fair.
