Christopher E. “Chris” Piper, Commissioner and Jessica Bowman, Deputy Commissioner, represented the Department of Elections (“ELECT”). Chairman Brink informed the Board that on March 12, 2020, Governor Ralph S. Northam declared that a state of emergency exists in the Commonwealth as the result of the potential spread of COVID-19, a communicable disease presenting a threat to public health. On March 30, 2020, the Governor issued an executive order requiring all individuals in Virginia to remain at their place of residence, with certain enumerated exceptions.

This meeting was conducted consistent with the requirements for electronic meetings by public bodies set forth in Items 4-0.01 of House Bills 29 and 30, as passed by the General Assembly (“GA”) and signed by the Governor in April of this year. The purpose of the meeting is to transact the statutorily required business of the Board. Chairman Brink stated that the Board would receive public comments on agenda items prior to its action on that item, and an open public comment period would be offered prior to adjournment.
The first item of business was the approval of the minutes presented by Secretary LeCruise. Vice Chair O’Bannon moved that the Board approve the minutes from the April 3, 2020 Board meeting. Chairman Brink seconded the motion, and the motion passed unanimously. A roll call vote was taken:

Vice Chair O’Bannon moved that the Board approve the minutes from the August 4, 2020 Board Meeting. Chairman Brink seconded the motion, and the motion passed unanimously. A roll call vote was taken:

The next item of business was the Commissioner’s Report presented by Commissioner Piper. Commissioner Piper informed the Board that today starts the “45-day” early voting and the deadline for all 133 localities to mail out absentee ballots. The Commissioner informed the Board that he accompanied Governor Northam to the Richmond General Registrars (“GR”) office to vote. Commissioner Piper expressed his appreciation to the 133 localities and the ELECT staff on preparing for early voting.

The Commissioner stated that the GA passed the no-excuse absentee early voting period, allowing voters to vote in the November 2020 general election for 45 days prior to November 3, 2020. Commissioner Piper informed the Board that as of September 17,
2020, there had been 840,000 absentee ballot requests. The Commissioner informed the Board that during the special session, the bill passed to provide absentee voters prepaid postage envelopes. Commissioner Piper stated that the absentee ballots mailed September 18 would contain a return prepaid postage envelope. The Commissioner stated that the GA set aside two million dollars to reimburse the localities for the prepaid postage.

Commissioner Piper stated that the GA instituted a cure process for the ballot envelopes. The Commissioner explained to the Board, that normally, if a voter failed to provide certain information on the absentee ballot’s internal envelope, it would be rejected. The cure process allows the GR to contact the voter within three days via phone, email, or letter, notifying them of the error and providing them an opportunity to correct the ballot or request a new ballot to submit. Commissioner Piper stated that in June ELECT entered into a consent decree from the Virginia League of Woman Voters for the removal of the witness signature on the return absentee ballot envelope. The Commissioner stated that the consent decree was put into law by the GA during the August session. Commissioner Piper stated if a voter is unable to provide a witness signature safely, they are not required to do so, and informed the Board that local elections officials (general registrars) were informed not to reject an absentee ballot based on a voter’s inability to provide a witness signature.

The Commissioner stated that during the August 8th Board Meeting the Board adopted two requirements for absentee ballots: the requirement for all localities to place an intelligent mail barcode on the absentee ballot envelope to track the ballot through its mailing process, and the requirement that all ballots and envelope contain the Elections...
Mail Insignia. Commissioner Piper stated that the Elections Mail Insignia is an identifier for the United States Postal Service (“USPS”) to recognize the envelope as official Elections/(ELECT) mail and classify it as a high priority. The Commissioner informed the Board that ELECT is in a partnership with the USPS regional team throughout this Election. Commissioner Piper informed the Board that ELECT was also in a consent decree to allow individuals with a print disability to safely and privately submit their ballot to ELECT.

The Commissioner informed the Board that ELECT has started a *Democracy Defended* media campaign and a *Free to be Absentee* promotional program. Commissioner Piper stated that ELECT has provided these two PR campaigns to highlight the elections security efforts provided by ELECT. The Commissioner informed the Board that the PR campaigns and absentee program provides information to the public on how to register to vote, early voting, how to safely cast a ballot, important deadlines, etc. Commissioner Piper stated the elections security program called *Democracy Defended* provides the public with an insight of what ELECT has been doing to ensure the safety of the Election and remind voters that their votes are safe. The Commissioner informed the Board that *Democracy Defended* also gives voters the opportunity to sign up as an officer of election to serve at a local polling place.

Commissioner Piper added that Governor Northam’s Chief of Staff, the Secretary of Education, the National Guard and others have sent out information encouraging students, faculty, and staff to sign up to serve as officers of election at their local polling places.
The Commissioner then showed the Board with the video created by ELECT for the *Democracy Defended* campaign. Commissioner Piper expressed his appreciation to the ELECT team for the hard work put into the campaign.
