BUSINESS TANGIBLE PERSONAL PROPERTY TAX

- All business owners, including owners of home-based businesses, are required to file a business tangible personal property return and current asset list annually by March 1. This includes property owned by the business, property owned personally and used in the business on a full or part-time basis, property received as a gift, property that is rented or leased, and property that is fully depreciated or expensed for federal income tax purposes. Lessees or renters of equipment must report the name and address of the lessor, lease number, description of item and beginning and ending dates of each lease.
- **ASSESSMENT FORMULA** - State law requires that business tangible personal property be valued based on a percentage of original capitalized cost and year of acquisition to arrive at fair market value. Business tangible personal property is currently assessed at 50% of cost for items bought in the immediate prior year. The assessment percentage decreases 10% per year to a minimum of 10% of cost for items acquired five or more years ago.
